

Who am I?

Name: Nico Kröner

PhD Student in the group of Christoph Schär

Master and bachelor at the ETH Zürich

Master thesis: Accuracy of trajectory
calculation depending on the temporal
resolution of the input files

Bachelor thesis: climatology of heat lows

What are my research topics?

- I started 3 Weeks ago so I'm still answering the question above..
- Working with the 12km run of CCLM for Cortex
- Extreme events
- Manipulating Cosmo-CLM parametrization (perturbed physics)
- Cloudiness and Inversion

Thank you for your attention
